UptimeLog Internet Outage Report

Report period: 19 October 2026 - 25 October 2026

Outages	Total downtime	Longest outage	Availability
41	**1h 7m 4s**	**11m 13s**	**99.01%**
Detected incidents	Across monitored time	22 October at 21:14:37	Based on monitored time

Report overview

Monitoring time	4 days 17 hours 45 minutes
Connections observed	Ethernet
ISPs observed	ExampleNet Cable

Summary

During the selected period, UptimeLog recorded 41 outages with a combined downtime of 1 hour 7 minutes 4 seconds. The longest outage lasted 11 minutes 13 seconds and started on 22 October at 21:14:37. Availability was calculated only from periods when monitoring was active.

Example report generated from synthetic monitoring data for demonstration purposes.
Example computer: MacBook Air. Timezone: Europe/Berlin (UTC+02:00; UTC+01:00 on 25 October).
Monitoring sessions: 07:00-23:15 daily. Sleep and unmonitored time are excluded.
Scenario assumption: the router remained reachable while external internet connectivity was unavailable.
Individual diagnostic check results are not stored in this report. This does not establish ISP responsibility.

Daily breakdown

Date	Outages	Total downtime	Longest outage	Availability
19 October 2026	4	4m 59s	2m 22s	99.48%
20 October 2026	7	12m 10s	4m 7s	98.75%
21 October 2026	5	6m 31s	2m 51s	99.33%
22 October 2026	9	21m 59s	11m 13s	97.74%
23 October 2026	6	9m 15s	2m 57s	99.05%
24 October 2026	2	1m 17s	53s	99.86%
25 October 2026	8	10m 53s	2m 48s	98.88%

Availability is calculated as monitored time minus downtime, divided by monitored time. Periods when the application was not running or the computer was asleep are excluded.

Methodology

UptimeLog monitors Internet availability from this computer by performing periodic connectivity checks. Diagnostic reasons are best-effort classifications based on system DNS, public DNS, TCP connectivity, HTTP response, and local gateway checks. The report reflects connectivity from this device and network. Sleep time and periods when UptimeLog was not running are excluded from monitored time.
